### EXAMINER'S COMMENT

1. An Applicant's Appeal Brief filed on February 8, 2007 has been entered. Overall, claims 1 and 4-6 are pending in this application.

#### *Allowable Subject Matter*

2. The following is an examiner's statement of reasons for allowance:

Re claim 1, applicant's argument on page 10 of the Appeal Brief that the references of record fail to disclose or teach "*control means ... so that said catalyst of said particular filter also releases active-oxygen to oxidize and remove the particulates trapped on said particulate filter without producing luminous flame*" is persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### *Prior Art*

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and consists of three patents: Suga et al. (U.S. Patent 6,557,342), Deeba (U.S. Patent 6,912,847), and Li et al. (U.S. Patent 6,938,412) further disclose a state of the art.

*Communication*

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Tu Nguyen whose telephone number is (571) 272-4862.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Thomas E. Denion, can be reached on (571) 272-4859. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.
